Why choose GMS?

GMS Industrial Supply, Inc. has been in business for over 19 years, it is locally owned and operated in San Diego, California and Virginia Beach, Virginia. GMS has been established as one of the largest women owned small business suppliers to the U.S. Government and Department of Defense. As our unique high-tech products are designed with the environment in mind, we have created a product offering unlike anyone else in the industry. Our experience in DoD Logistical Support in the areas of Chemical Solutions, Fasteners and Tactical Gear, has been the catalyst to our growth in the industry throughout the United States and Abroad. GMS has dozens of NSN's and 100's of NAVSUP stock numbers on the most favored procurement contracts and in the stock system, along with being stocked in the DLA Depots with an experienced presence at nearly every major DoD Facility in the continental US, Alaska, and Hawaii. We are grateful for the many years of guidance, support, and direction in order to design our products to best meet the needs of the brave men and women of the Army, Navy, Air Force, Marines and Coast Guard with whom this country is blessed. When you purchase a product from GMS, you not only get a world class product, you also get complete customer satisfaction. Our sales and service team, with over 90 combined years of experience, will take care of your every need, providing complete satisfaction. GMS Industrial Supply, Inc. is committed to being the best nationwide-our satisfied customers are our proof! Simply put, GMS responds with excellent service and gets the critical materials needed where, when, and how it is needed, faster than anyone.

Our President

God Loves You

"And He said to them, 'Go into all the world and preach the gospel to every creature.'" Mark 16:15

"Do nothing out of selfish ambition or vain conceit, but in humility consider others better than yourselves. Each of you should look not only to your own interests, but also to the interests of others" Philippians 2:3-4

Dear Valued Customer,

My name is Rachel Gorke, Owner and President of GMS Industrial Supply, Inc., woman owned small business. Our experienced professional sales and service representatives are ready to assist you with any maintenance problems or needs that you may have. With every purchase of our products, you get a total commitment from GMS Industrial Supply, Inc. that you will receive complete customer satisfaction from the very best products, services, and technical support in the industry.

- Rachel Gorke

Our Mission Statement

We rely on Jesus Christ as our cornerstone; He is the foundation on which we stand as our strength and our shield. It is the mission of GMS Industrial Supply, Inc. to extend our line of environmentally friendly chemicals and industrial supplies in order to satisfy our customers' needs through a family based approach to a modern economy. We humbly serve our Lord in providing the best customer service in the industry while striving to enhance our world and well being. We value the resilience and dedication of our United States Military, as well as the channels utilized to best service these sectors.

The Green Oger's TAA Compliance Promise

The Green Oger and the GMS team have worked tirelessly to ensure all of your standards are met. That's why we're the sole supplier that can ensure 100% TAA compliance on all material you receive from us. Are the "other guys" putting in that effort for you? Remember - the Green Oger CRUSHES the competition - call us today to learn how we can best outfit your command!

GMS Industrial Supply, Inc.

GMS is proud to have 52 NSNs! This additional purchasing method makes procurement easy!

FEDMALL 

73: GS-07F-0369V

FedMall is an internet-based ordering service that allows customers to make a “Best Value” decision for products from a variety of sources through a single entry point based on price, delivery, product description, vendor performance, or other factors required to meet mission objectives.

This FedMall Indefinite Delivery/Indefinite Quantity (IDIQ) Multiple Award Schedule (MAS) type contract for various commercially available off-the-shelf (COTS) items which will be ordered through the FedMall system for delivery to FedMall customers worldwide. FedMall customers include DoD military and non-military customers, the Defense Logistics Agency (DLA) acting as or on behalf of the customer, and customers of other Government entities (including Federal, State, and/or Local) objectives.

Due to the overwhelming popularity of our MRO Maintenance Kits and our fully TAA compliant hardware line, DLA has assigned NSNs to many of our most popular kits.

Please see your GMS Account Manager with questions regarding the loading of our GCSS Kits.

Ship Shape! Cannonballs

Over a 90% Reduction of Fossil Fuels/GHG's

God Loves You

Proudly Made in the USA!

Ship Shape! Cannonballs (SSCB) in itself means the right shape and size for US Navy ships and any deploying unit in the DoD. Please see the table below for the SSCB! items approved for the USN T-SHML as the CID process continues on our product line. We have spent over a decade developing this product line, hand in hand with US Navy and US Army personnel; keeping in mind the directives in Executive Order-13514 and the NAVSUP PRIME (Plastic Reduction In The Marine Environment) initiative. On March 30th 2015, **Executive Order-13693** mandated a reduction of GHGs (Green House Emissions). Ship Shape! Cannonballs represents over a 90% reduction of Fossil Fuels in logistics and our environmentally friendly ingredients meet Executive Order-13693. The technology is simple: individual dissolving packs of green, super-concentrated cleaning compounds that will fit in the palm of your hand and make an entire quart in any bottle or container at the lowest cost. There are no other alternatives that utilize the approved green technologies, that will also soon include and incorporate sustainable Bio-Preferred technologies with the cleansing power, and hazmat storage footprint reduction as easy to use as the Ship Shape! Cannonballs products. Our packaging technology makes it possible to improve the efficiency of cleaning on board any ship, or deployed unit wherein use of space is mission critical, in compliance with Federal directives.

One Pallet of RTU Products:

- 4 x 1 gallons per box
- 50 cases per pallet
- Delivers 600 quarts of RTU product
- Requires about 67 cubic feet of space
- Weighs 1650 lbs.

- Reduces storage space requirements by 97%
- Handling weight is reduced by 99.7%
- Shipping charges are reduced by up to 90%
- Plastic to waste is reduced by 99%
- On average, a 35% cost savings!
- Ship Shape! Cannonballs deliver 200 more quarts or 25% more product than an entire pallet of RTU product
- Traditional concentrate packaging has mix requirements that can be rendered useless by equipment failure
- Design for the Environment Certified
- Empty jars and tubs are recycled as part of our recycling program
- Most formulas are biodegradable

GMS2507JR

GMS2507TB

One Box of

Ship Shape! Cannonballs:

- 100 Cannonballs per tub, 8 tubs per box
- Makes 800 quarts of RTU product
- Requires 1.2 cubic feet of space
- Weighs 8 lbs.

Brand New NSN's Approved for T-SHML and SMCL (Submarine)! Items highlighted are also T-SHML Approved!

Be sure to inquire about our **Deployment Sanitation Pack GMS61962** - the perfect setup and size for ships or deploying commands!

The Green Oger Dilution Solution System

There are 3 reasons why you can't work without a Green Oger Dilution Solution System!

1. Extraordinary cost savings: The Green Oger has your budget in mind.

2. National transition to Green Formulated Products: The Green Oger Dilution Solution System utilizes cutting edge green formulations to create a safer, earth friendly solution. Our products meet the Federal sustainability requirements of Executive Order-13693 and the reduction of GHG (greenhouse gases).

3. Tremendous waste stream elimination: By using the Green Oger Dilution Solution System, your are helping reduce greenhouse gas emissions by at least 40% over the next decade while at the same time fostering innovation, reducing spending, and strengthening the communities in which our Federal facilities operate.

GMS Industrial Supply Inc Earns USDA Certified Biobased Product Label

Virginia Beach, VA. (August 15, 2018) — GMS Industrial Supply Inc announced today that it has earned the U.S. Department of Agriculture (USDA) Certified Biobased Product label. The product, Green Oger™, is now able to display a unique USDA label that highlights its percentage of biobased content.

The following GMS Industrial Supply Inc products have earned the USDA Certified Biobased Product Label:

- Green Oger™ with 48% biobased content.
- Green Oger Jr™ with 48% biobased content.
- Natural Reflections™ with 63% biobased content.
- Super Natural Bowl Buster™ with 83% biobased content.

Third-party verification for a product's biobased content is administered through the USDA BioPreferred Program, an initiative created by the 2002 Farm Bill (and most recently expanded by the 2014 Farm Bill). One of the goals of the BioPreferred Program is to increase the development, purchase and use of biobased products.

The USDA Certified Biobased Product label displays a product's biobased content, which is the portion of a product that comes from a renewable source, such as plant, animal, marine, or forestry feedstocks. Utilizing renewable, biobased materials displaces the need for non-renewable petroleum-based chemicals. Biobased products, through petroleum displacement, have played an increasingly important role in reducing greenhouse gas emissions that exacerbate global climate change.

"We applaud GMS Industrial Supply Inc for earning the USDA Certified Biobased Product label," said Kate Lewis, USDA BioPreferred Program. "Products from GMS Industrial Supply Inc are contributing to an ever expanding marketplace that adds value to renewable agriculture commodities, creates jobs in rural communities, and decreases our reliance on petroleum."

According to a report that USDA released in 2016, biobased products contributed \$393 billion to the U.S. economy in 2014 and support, directly and indirectly, 4.2 million jobs. In this report, the research team estimate petroleum displacement of up to 6.8 million barrels in 2014.

The increased production of renewable chemicals and biobased products contributes to the development and expansion of the U.S. bioeconomy - where society looks to agriculture for sustainable sources of fuel, energy, chemicals, and products.

USDA Certified Biobased Products by GMS Industrial Supply, Inc.

GMS Industrial Supply, Inc. products meet the Federal sustainability requirements of Executive Order-13693 and the reduction of GHG (greenhouse gases). GMS Industrial Supply products meet the requirements to be a vital tool in helping reduce greenhouse gas emissions by at least 40 percent over the next decade while at the same time fostering innovation, reducing spending, and strengthening the communities in which our Federal facilities operate as referred to ("**Executive Order-13693 -- Planning for Federal Sustainability in the Next Decade**"). We are delivering environmental performance without sacrificing workplace performance. This will save taxpayer dollars through avoided energy costs and increased efficiency while also making Federal facilities more resilient.

GMS Industrial Supply, Inc. now carries USDA Certified Biobased Products!

We carry these products that meet
Executive Order #13693

GMS HEMTT/5K FUEL BERMES PERMANENT CONTAINMENT SYSTEM

With the high demand for secondary containment, GMS HEMTT/5K Fuel Berms are designed to fit the needs of today's 2,500 gallon HEMTT tankers, 5K tankers, fuel pods, and TPUs. Our Fuel Berms are a permanent, re-locatable product line that meet all EPA and OSHA regulations for secondary containment.

Originally designed for fuel tankers, these can also be used in a multi-purpose role as a wash rack, loading/unloading rack, a decontamination station, fueling stations, fueling pod, transfer station, and a multitude of other uses.

With our state-of-the-art filtration system, the versatility justifies the initial investment and makes the GMS HEMTT/5K Fuel Berms the most cost-effective, multi-purpose product line available today.

Our Fuel Berms are a permanent, re-locatable, drive-through containment system of various models and sizes, with ramps in different configurations and including our filtration system. We use a hydrophobic lock and seal absorbent that makes these Fuel Berms a point source control unit.

As always, our GMS HEMTT/5K Fuel Berms come with an assortment of GMS absorbent components and accessories for a full spill containment solution on site.

The side walls of our GMS HEMTT/5K Fuel Berms have been designed and engineered to withstand a 12 ton vehicle axle load being driven over the side walls, making this the most heavy duty secondary containment system available on the market.

The GMS HEMTT/5K Fuel Berms can be set up and moved with standard material handling equipment, such as a 5 ton crane/wrecker or forklift, and transported by flatbed and can be placed on any level surface.

MODELS AND SIZES				
Model Number	Options	Outer Dimension (LxWxH)	Weight	Sump Capacity
GMS7481K	2 Inner / 2 Outer Ramps	35' x 12' x 10.5"	10,800 lbs.	2,136 Gallons

FILTRATION SYSTEM

Cartridge Apart

Cartridge with Pad

Replacement Pad

Complete Cartridge with Pad

Our filtration cartridge is a steel two-piece system which uses specially designed replaceable pads (GMS146P—12 per box). The filtration cartridge was designed to save you money. Simply replace the filtration pads as needed. With the rugged designed steel system, you don't have to worry about the filter falling apart during replacement. Our design is easier to use, making it easier to remain in compliance.

FILTER TEST

Test #1: Water only poured into side A and allowed to pass through filter. Sample 1B taken from filtered side.

Test #2: Ten (10) gallons of water with a 1% red dye diesel solution poured into side A and allowed to pass through filter to equalize. Sample 2A taken from side A. Sample 2B taken from side B (filtered side).

Photo of sample 2A being taken.

Test #4: Ten (10) gallons of water with a 10% red dye diesel solution poured into side A and allowed to pass through filter to equalize. Sample 4A taken from side A. Sample 4B taken from side B (filtered side).

Added red dye diesel solution to side A to reach a 30% minimum concentration.

Shows sample #5A.

Oger Wraps

Oger Wrap is made from a special silicone material which sticks and bonds only to itself. Oger Wrap has NO ADHESIVE and leaves no residue when removed. Oger Wrap silicone tape stretches up to 300% and conforms to irregular shapes.

Oger Wrap fuses only to itself and creates a permanent air and liquid tight seal. Oger Wrap silicone tape is excellent for wrapping cables and wire, will insulate to 8000 volts, will not melt up to 500° F (260° C), and withstands UV and weathering like no other tape.

- Silicone tape withstands up to 500°F (260°C)
- Remains Flexible to -60°F (-50°C)

Oger Wrap is perfect for automotive, electrical, plumbing, and marine use. Designed with the United States Military in mind!

How to use Oger Wrap:

- Wrap and mark frequently used hand tools!

- Insulates wire regardless of material and connector size!

- Use as an alternative to duct tape, good for patching ducts, joints, and hoses!

- Perfect for pipe connections to prevent and correct leaks!

1" x 10" Rolls:
